

Ex d Flameproof Line Heaters

The range of Ex d flameproof line heaters are suitable for heating all process fluids which are non-corrosive to the materials of construction, providing a clean and efficient heating method for bulk liquid flow applications. The Ex d flameproof line heater range is certified for use in hazardous areas where the atmosphere is classified as a Zone 1 or 2 (IIA, IIB, IIC) gas group, or a Zone 21 or 22 (IIIA, IIIB, IIIC) dust group.

FEATURES

Thermal insulation and cladding

Weatherproof terminal enclosure to IP66

Internal control thermostats and over-temperature thermostat

Alternative materials of construction available

Designed for horizontal installation (vertical mounting version available on request)

TYPICAL APPLICATIONS

Industrial washing and rinsing processes

Indirect heating of liquids

Engine jacket pre-heating

Temperature maintenance of storage tanks

Under floor heating schemes

Lube oil pre-heating

Fuel oil

Heat transfer oils

Tempering of low grade residual oils for burners and engines
